Work Experience

Senior Software Engineer(Remote)
Registration LLC.
Full-time, March 2023 - Present. California, United States

As a Software Developer at Registration LLC, I am entrusted with diverse responsibilities that encompass strategic planning, database design, and Python development. I excel in understanding project requirements, defining clear objectives, and establishing goals to drive efficient project execution. My role combines analytical thinking with hands-on technical expertise, contributing to the success of Registration LLC's projects.

Senior Software Engineer
Arena Web Security.
Full-time, August 2016- February 2023. Dhaka

Experienced Senior Software Engineer, expert at designing, developing, and implementing advanced software solutions. Fluent in various programming languages and frameworks, with a proven history of delivering top-notch projects on schedule and within budget. Strong in problem-solving, and a team player.
